Coloring Activity Page

Detectives are trained to notice things other people may not. Footprints and fingerprints, DNA, fibers and handwriting analysis... These are all collected as evidence when

investigating a crime and can help identify the suspects. Solving crimes is like solving a puzzle. You can be the detective in this puzzle by either finding the right path through the maze that leads you to the bank robber or by connecting the right letters that will tell you how a detective solves a crime.

A large maze puzzle with various words hidden within its paths. The words are:

- LABOR
- GRIB
- NCIE
- ULU
- OBETH
- UES
- LC
- EW
- LOW
- OWTH
- UCK
- RTM
- REA
- CEC
- WIE
